Budapest, 20.01.2021

The decrease in consumption caused by the Covid-19 pandemic continues to place strong pressure on prices. In combination with cost increases in paper production and transport, this has continued to lead suppliers to unsustainable profitability levels.

Therefore, on behalf of Sappi Papier Holding, we hereby inform you that prices increase for the entire Woodfree Coated and Uncoated paper range by a minimum of 50€/ton as of 01.03.2021.

The Sappi sales team will be in contact with its customers to discuss the details and support the implementation.

Best regards,

Thomas Lang
Managing Director CEE Office
