Declaration of Compliance

Product Name: Smartline Fine Gloss

Product Description: Coated printing paper

1. General Information

Pulp composition

The above mentioned product is produced with a mixture of elementary (ECF) and totally chlorine free (TCF) bleached chemical pulp cellulose fibres. The production is based on virgin fibres only and no recycled fibres are used for pulp preparation. We further confirm that the above mentioned product is produced without intentional addition of any recycled materials.

Coating

Smartline Fine Gloss is two side coated, equally.

Acid content/Chloride content

The pH of *Smartline Fine Gloss* is above 7. *Smartline Fine Gloss* can be described as neutral or slightly alkaline. It has not been tested for chloride content.

2. Food Contact Status

Conditions for food contact

Smartline Fine Gloss has been assessed by an accredited laboratory for food contact suitability. According to the food contact certificate issued by the laboratory, it can be used for long term contact (maximum 2 years) at room temperature. It also can be used for short term contact (maximum 2 hours) at temperatures up to 90 °C (holding and reheating of food) in accordance with XXXVI recommendation of the BfR. It can be used in direct contact with dry foodstuff. Furthermore, contact can be made with such fatty foodstuffs which were assigned to a correction factor of at least 3 according to Annex III, table 2 of Commission Regulation EU 10/2011.

Compliance with (EU) No 1935/2004

Smartline Fine Gloss has been assessed by an accredited laboratory and found to be in compliance with the requirements of Framework Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food. *Smartline Fine Gloss* can be applied as packaging for foodstuffs, as indicated on the food contact certificate issued by the accredited laboratory.

Compliance with (EC) No 2023/2006

Smartline Fine Gloss was manufactured in accordance with Commission Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food. Full traceability of raw materials is possible through the IT systems. The producing mill has implemented a quality management system according to ISO 9001. The quality management system is externally certified.

Compliance with BfR recommendation XXXVI

Smartline Fine Gloss has been found to be in compliance with the requirements set in **Bundesinstitut für Risikobewertung (BfR) Recommendation XXXVI**. „Papier, Kartons und Pappen für den Lebensmittelkontakt“ (Paper and board for food contact).

Compliance with Foodstuffs and Animal Feed Code (LFGB)

Smartline Fine Gloss is in compliance with the rules of the current version of the Foodstuffs, Consumer Goods and Animal Feed Code (Foodstuffs and Animal Feed Code (LFGB)).

Compliance with FDA requirements for food packaging

Smartline Fine Gloss has not been assessed according to the demands of the Code of Federal Regulations, Foods and Drugs (FDA), 21 CFR Ch. 1 (version of April 2024), §§ 176.170 and 176.180.

Compliance with the Swiss Ordinance on food packaging materials

Smartline Fine Gloss fulfills the requirements stated in the Swiss Ordinance on Materials and Articles (SR 817.023.21), Part 9, Article 27. It solely contains virgin fibres and no recycled fibres.

French regulation Fiche MCDA n°4 (V02 – 01/01/2019)

The above mentioned product has not been assessed for compliance in regard to the French regulation Fiche MCDA n°4 (V02 – 01/01/2019), or any French legislation.

3. Toy Safety

EU toy safety directive

Smartline Fine Gloss meets the requirements of Directive 2009/48/EC of the European Parliament and of the Council on the safety of toys, including the latest amendments, for scraped-off toy materials regarding their chemical properties. It can be safely used in toys for children older than 3 years and for toys that are not intended to be placed in the mouth.

Toy safety EN 71/3

Smartline Fine Gloss has been tested and found to be in compliance with the demands of the latest version of the Toy Safety standard EN 71-3: "Migration of certain elements".

Toy safety EN 71/9

Smartline Fine Gloss has been tested and found to be in compliance with the demands of the Toy Safety standard EN 71 part 9:2005: "Organic chemical compounds". The formaldehyde concentration in accordance with EN 645 and EN 1541 was confirmed to be below the limit of 30 mg/kg.

4. Relevant legislation

Compliance with EC 1907/2006 (REACH)

The regulation EC No 1907/2006 (REACH) primarily addresses chemical substances, mixtures and articles being placed on the market in the European Union (EU) / European Economic Area (EEA). Registration requirements under the REACH regulation apply to substances and as such they do not apply to the above mentioned product being placed on the EU / EEA market by Sappi. Any REACH registration obligations that apply to the raw materials (substances) being used in the manufacturing processes of our products are being met by our suppliers and we request confirmations from our suppliers that they have fulfilled those obligations.

To the best of our knowledge, no substance listed on either the Candidate List for Substances of Very High Concern (SVHC) nor any of those substances already listed in Annex XIV for Authorisation under REACH, are found in the products we are supplying to our customers at concentrations >0.1%. Amendments of the SVHC list up to and including 4th of February 2026 have been considered.

Any information that needs to be passed down the supply chain in accordance with the provision of information requirements of the REACH regulation will be communicated to you separately where required and in the appropriate format, as regulated by Article 33 of EC 1907/2006.

Compliance with Regulation (EU) 2025/40 (PPWR)

Article 5(4) – Regulation (EU) 2025/40 (PPWR), minimization of substances of concern (heavy metals):

Smartline Fine Gloss complies with the heavy metal requirements set out in Article 5.4 of Regulation (EU) 2025/40 (PPWR).

Article 5(5) – Regulation (EU) 2025/40 (PPWR), substances of concern (PFAS / Total Fluorine):

PFAS are not intentionally added in the manufacturing process of *Smartline Fine Gloss*. Sappi paper grades were analyzed according to the testing approach recommended in the guidance for Article 5(5) of Regulation (EU) 2025/40 (PPWR). Based on the obtained test results, *Smartline Fine Gloss* complies with the requirements set out in Article 5(5) of Regulation (EU) 2025/40 (PPWR).

Article 6 – Regulation (EU) 2025/40 (PPWR), recyclability:

The recyclability of *Smartline Fine Gloss* has been proven. The requirements set in EN 13430:2004 (Requirements for packaging recoverable by material recycling) are met.

The data reflects compliance with Regulation (EU) 2025/40 (PPWR), including Article 5(4) (heavy metals), Article 5(5) (substances of concern / PFAS), and Article 6 (recyclability), as applicable. Representative samples from each mill and/or each brand family have been selected, tested and cross-referenced. This information is valid for paper products delivered by Sappi mills, prior to any further converting processes.

CONEG

Smartline Fine Gloss is in compliance with the demands of the current version of the Model Toxics Legislation by the Source Reduction Council of CONEG regarding the content of heavy metals. The sum of the heavy metals Cr(VI), Pb, Cd, Hg is below 100 ppm.

Compliance with Directive 2011/65/EU (RoHS)

The substances restricted by EU-directive 2011/65/EC Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment (ROHS directive) and its amendments Directive (EU) 2015/863 and Directive (EU) 2017/2102 have not intentionally been added to the manufacturing process of the above mentioned product. They are not expected to be present above the maximum allowed thresholds levels.

Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65)

Substances listed in the latest version of the Safe Drinking And Toxic Enforcement Act of 1986 Proposition 65 have not intentionally been added to the manufacturing process of the above mentioned product. Updates until and including December 5th, 2025 have been considered.

Canadian Environmental Protection Act

Substances listed in Canadian Environmental Protection Act, 1999 are not intentionally added to the manufacturing process of *Smartline Fine Gloss*.

5. Miscellaneous

BSE/TSE risk

Raw materials of animal origin classified as risk materials according to COMMISSION REGULATION (EC) No 1326/2001, Annex III, are not used during the manufacture of *Smartline Fine Gloss*. For all processing aids, i.e. defoamers, we already have declarations of our suppliers available that specifically exclude a TSE risk. In detail, the respective suppliers confirmed, that during the production of respective raw materials and their precursors, the conditions outlined in EMEA/410/1, section 6.4., respectively in Annex I 3. of EU 722/2012 are applied.

Halal/Kosher

No substances of animal origin are intentionally added to the manufacturing process of *Smartline Fine Gloss*. Neither *Smartline Fine Gloss* nor the producing mills have been assessed or certified as Kosher or Halal.

Substances of animal origin

No substances of animal origin are intentionally added to the manufacturing process of *Smartline Fine Gloss*.

6. Information on end-of-life scenarios

Recyclability

The above mentioned product is fully recyclable in the waste paper stream. *Smartline Fine Gloss* has not been tested for its repulpability properties, but to the best of our knowledge about *Smartline Fine Gloss* composition, manufacturing process, and raw materials we are not

aware of any limitations to its recyclability. To the best of our knowledge, the recycling code PAP 22 according to Annex II of 97/129/EC can be assigned to a hypothetical packaging consisting purely of above mentioned material.

7. Non-use and use of specific substances or materials

Genetically modified organisms

Genetically modified organisms are not intentionally added to the manufacturing process of *Smartline Fine Gloss*.

MOSH/MOAH (mineral oil)

Mineral oil is not used as a paper raw material in the production of this grade. However, traces of substances originating from defoamers, stabilizers or other materials used during production may lead to a positive result in a MOSH-analysis.

Anthraquinone

Anthraquinone (CAS 84-65-1) has not been added to the manufacturing process of the above mentioned product. Its nonpresence in the raw materials is screened regularly.

Nanomaterials

Raw materials, such as calcium carbonate, containing particles with one or more external dimensions in the nano range may be used in the manufacturing process of the above mentioned product. These particles would meet the definition of nanoparticles according to Commission Recommendation of 10 June 2022. The presence of these particles in the respective raw materials arises from a naturally occurring and/or technically unavoidable particle number-based size distribution. These particles are embedded in the paper matrix and are not anticipated to undergo migration.

Allergenes

No substances with allergenic hazard according to Annex II of EU 1169/2011 are intentionally added during the production of *Smartline Fine Gloss*, except for wheat starch, which in turn may contain gluten. Amendments of EU 1169/2011, namely Commission Delegated Regulation (EU) No 78/2014 and Commission Delegated Regulation (EU) No 1155/2013 have been considered.

Glycides

Smartline Fine Gloss has not been tested for the presence of glycidyl fatty acid esters as well as glycidyl silanes, such as GLYMO or GLyEO. We do not intentionally add these chemicals to the manufacturing process and they are not expected to be present in the final product.

Polystyrene

Solid polystyrene plastics are not used in the manufacturing process of *Smartline Fine Gloss*. In paper raw materials, water dispersions of styrene-butadiene latex can be used.

Persistent organic pollutants

None of the following substances listed in the annexes of the Stockholm Convention (last updated 2025) have been intentionally added during production of this product:

Annex A (Elimination)

- Aldrin
- Chlordane
- Chlordecone
- Chlorpyrifos
- Decabromodiphenyl ether (commercial mixture, c-decaBDE)
- Dechlorane Plus
- Dicofol
- Dieldrin
- Endrin
- Heptachlor

- Hexabromobiphenyl
- Hexabromocyclododecane (HBCDD)
- Hexabromodiphenyl ether and heptabromodiphenyl ether
- Hexachlorobenzene (HCB)
- Hexachlorobutadiene (HCBD)
- Alpha hexachlorocyclohexane
- Beta hexachlorocyclohexane
- Lindane
- Long-chain perfluorocarboxylic acids, their salts and related compounds
- Medium-chain chlorinated paraffins (MCCPs)
- Methoxychlor
- Mirex
- Pentachlorobenzene
- Pentachlorophenol and its salts and esters
- Polychlorinated biphenyls (PCBs)
- Polychlorinated naphthalenes
- Perfluorooctanic acid (PFOA), its salts and PFOA-related compounds
- Perfluorohexane sulfonic acid (PFHxS), its salts and PFHxS-related compounds
- Short-chain chlorinated paraffins (SCCPs)
- Technical endosulfan and its related isomers
- Tetrabromodiphenyl ether and pentabromodiphenyl ether
- Toxaphene
- UV-328

Annex B (Restriction)

- DDT
- Perfluorooctane sulfonic acid (PFOS), its salts and perfluorooctane sulfonyl fluoride (PFOSF)

Annex C (Unintentional production)

- Hexachlorobenzene (HCB)
- Hexachlorobutadiene
- Pentachlorobenzene
- Polychlorinated biphenyls (PCBs)
- Polychlorinated dibenzo-*p*-dioxins (PCDD)
- Polychlorinated dibenzofurans (PCDF)
- Polychlorinated naphthalenes

None of the substances listed in Annexes I - IV in Regulation EU 2019/1021 are intentionally added during the production of *Smartline Fine Gloss*. The amendments up to and including 22th July 2024 (EU) 2024/2570 have been considered.

Titanium oxides

Titanium oxides (CAS 13463-67-7, 1317-80-2, 1317-70-0) are not intentionally added. The substances are not part of *Smartline Fine Gloss* formulation and they are not expected to be present in *Smartline Fine Gloss*.

Optical brightening agents

Optical brightening agents (OBAs) are intentionally used during the manufacture of *Smartline Fine Gloss*. These substances are used in accordance with respective BfR recommendations and FDA legislation.

PVDC

Polyvinylidene chloride (PVDC) is not added to the manufacturing process of the above mentioned product.

Conflict minerals

No gold, tin, tantalum or tungsten, or their derivatives, such as coltran, cassiterite, columbite-tantalite or wolframite, as laid out in the Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502, are added during the production of *Smartline Fine Gloss*.

CMR Substances according to CLP legislation

During the production of *Smartline Fine Gloss*, no substances classified as cancerogenic, mutagenic or toxic for reproduction according to CLP regulation EC 1272/2008 are intentionally added.

Wet strength agents

Wet strength agents have not been added to the manufacturing process of the above mentioned product.

Flame retardants

No flame retardants have been added to the manufacturing process of *Smartline Fine Gloss*. We can confirm non-use of the following substances commonly used as flame retardants:

- Antimony trioxide CAS (1309-64-4)
- TBPH, Bis(2-Ethylhexyl)-3,4,5,6- tetrabromophthalate CAS (26040-51-7)
- TBB, 2-Ethylhexyl-2,3,4,5-tetrabromobenzoate CAS (183658-27-7)
- Chlorinated paraffins CAS (108171-26-2)
- TCPP, Tris(1-chloro-2-propyl) phosphate CAS (13674-84-5)
- HBCD, Hexabromocyclododecane CAS (3194-55-6)
- TBBPA, Tetrabromobisphenol A CAS (79-94-7)
- TCEP, Tris(2-chloroethyl) phosphate CAS (115-96-8)
- TDCPP, Tris(1,3-dichloro-2-propyl) phosphate CAS (13674-87-8)
- Deca-BDE, Decabromodiphenyl ether CAS (1163-19-5)
- Octa-BDE, Octabromodiphenyl ether CAS (32536-52-0)
- Penta-BDE, Pentabromodiphenyl ether CAS (32534-81-9)

TSCA Section 6

No substances listed under Section 6 of the US Toxic Substances Control Act have been intentionally added to the manufacturing process of *Smartline Fine Gloss* and they are not expected to be present. At the time of the assessment the following persistent, bioaccumulative, and toxic chemical substances have been listed:

- PIP (3:1) - phenol, isopropylated phosphate (3:1) (CAS 68937-41-7)
- DecaBDE - decabromodiphenyl ether (CAS 1163-19-5)
- HCBd - hexachlorobutadiene (CAS 87-68-3)
- PCTP - pentachlorothiophenol (CAS 133-49-3)
- TTBP - 2,4,6-tris(tert-butyl)phenol (CAS 732-26-3)

Other substances

None of the following substances/substance classes have been intentionally added to the manufacturing process of *Smartline Fine Gloss*:

- Acetone (CAS 67-64-1)
- Alkylphenols and their ethoxylates
- Anthraquinone (CAS 84-65-1)
- Antimony Tris(Ethylene Glycoxide) (CAS 29736-75-2)
- Asbestos
- Azodicarbonamide (CAS 123-77-3)
- BAC (CAS 63449-41-2)
- BADGE, BFDGE, NOGE
- Benzene (CAS 71-43-2)
- Benzophenones
- Benzyl alcohol (CAS 100-51-6)
- Bisphenols and derivatives
- Cadmium, lead, mercury, chromium and compounds thereof
- Chlorine and other halogens (Fluorine, Bromine, Iodine)

- Cholecalciferol (CAS 67-97-0)
- Cobalt and its compounds
- Creosote
- Cyanuric acid (CAS 108-80-5)
- DDAC (CAS 7173-51-5)
- Diisopropylnaphtalenes (DIPNs)
- Dimethylfumarate (CAS 624-49-7)
- Dioxane (CAS 123-91-1)
- Disodium guanylate (CAS 5550-12-9)
- Epoxy resins
- Epoxidised Soybean Oil (ESBO)
- Ethanol (CAS 64-17-5)
- Ethylene oxide (75-21-8)
- Formaldehyde
- Glyphosate (CAS 107-83-6)
- Glycol ethers
- GLYMO (CAS 2530-83-8), GLYEO (CAS 2602-34-8) and their reaction products, as well as other epoxy silanes
- Hexane (CAS 110-54-3)
- Inosinate (CAS 4691-65-0)
- Isobornyl Acrylate (CAS 5888-33-5)
- Isopropyl alcohol (IPA) (CAS 67-63-0)
- Isopropylthioxanthone (ITX, CAS 5495-84-1, 83846-86-0)
- Mancozeb (CAS 8018-01-7)
- Melamine (CAS 108-78-1)
- Micas
- Monosodium glutamate (CAS 142-47-2)
- Natural rubber latex materials
- N-Ethyl-Toluenesulfonamide (CAS 8047-99-2)
- Nitrosamines, Nitrites, Nitrates
- Nitrocellulose
- N-Methylpyrrolidone (NMP) (CAS 872-50-4)
- 4-Nonylphenol (4-NP) (CAS 3050-88-2)
- Nonylphenoethoxylate (NPE, CAS 127087-87-0)
- Organic Peroxides
- Organotin compounds
- Orthophenylphenol (CAS 90-43-7)
- Partially hydrogenated terphenyls (HTPs)
- Pentachlorophenol (PCP)
- Pentanedione-2,4-titanium
- Perchlorates
- Pesticides and Fungicides
- Phenylalanin, Phenylamine
- Phthalates
- Polybrominated biphenyls
- Polycyclic aromatic hydrocarbons (PAHs)
- Polyvinylchloride (PVC)
- Primary aromatic amines and azo colorants which may cleave to form aromatic amines as listed in European regulation 1907/2006/EC (REACH)
- Radioactive materials, radioactive contamination
- Rayon
- Resorcinol (CAS No. 108-46-3)
- Rice plant derived substances
- Seed-bearing parts of a flowering plant (fruits)
- Sodium Antimonate A (CAS 15432-85-6)
- TAA Titanium Acetylacetonate (CAS 17501-79-0)

- Thiuram (CAS 137-26-8)
- Toluene (CAS 108-88-3)
- Triclosan (CAS 3380-34-5)
- Tris(4-nonylphenyl, branched and linear) phosphite
- 2,2,4-Trimethyl-1,3-pentandioldiisobutyrate (CAS 6846-50-0)
- Vinyl chloride (CAS 75-01-4)
- Volatile Organic Compounds
- Yeast
- TNPP, 4 NP and NPE

Bisphenols

We confirm, that Bisphenol A (CAS-No. 80-05-7), as well as other bisphenols and bisphenol derivatives are not intentionally added during the production of our paper grades. Considering articles 3 and 4 of Regulation 2024/3190/EC, we therefore consider *Smartline Fine Gloss* compliant with the regulation.

8. Disclaimer

Disclaimer

This declaration is restricted to the above mentioned product in the state it is delivered by us. This information provided in this statement applies only for the above mentioned product and may not substitute necessary end use testing. Sappi shall not be liable for any damage or injury resulting from misuse or uninstructed use of its products. This statement shall not be regarded as a warranty of fitness for particular purpose or end use. The end users shall have responsibility for verifying the suitability of *Smartline Fine Gloss* for a particular application or end use. The information given in this statement has been verified by Sappi at the date of its publication and we shall not be liable for any future changes in information, contents, processes, regulatory or legal requirements included in this statement. This statement is valid maximum one year unless a more recently dated version is available. Republishing this document is not permitted.

VYHLÁSENIE O SÚLADE VÝROBKOV S POŽIADAVKAMI NARIADENIA (EÚ) 2025/40 O OBALOCH A ODPADOCH Z OBALOV (PPWR)

Dátum vydania: 9. júl 2026

Názov produktu: Smartline Fine Gloss

Popis produktu: Natieraný papier

Výrobca: Sappi Europe (Glaverbel Building, 166 Chaussée de la Hulpe, 1170 Brussels, BELGICKO)

Kontaktná osoba: Elcin Coskun (Product Stewardship Specialist, e-mail: elcin.coskun@sappi.com)

1. Všeobecné informácie

- **Zloženie buničiny:** Produkt je vyrobený zo zmesi chemickej buničiny bielennej elementárnym chlóróm (ECF) aj úplne bez chlóru (TCF). Výroba je založená výhradne na panenských vláknach, bez použitia alebo zámerného pridania recyklovaných materiálov.
- **Náter:** Papier Smartline Fine Gloss je obojstranne rovnomerne natieraný.
- **Kyslosť a chloridy:** Hodnota pH papiera je vyššia ako 7 (neutrálne až mierne zásadité). Obsah chloridov nebol testovaný.

2. Styk s potravinami

- **Podmienky použitia:** Papier bol posúdený akreditovaným laboratóriom na styk s potravinami. Je vhodný na dlhodobý kontakt (max. 2 roky) pri izbovej teplote a na krátkodobý kontakt (max. 2 hodiny) pri teplotách do 90°C (uchovávanie a ohrev potravín) v súlade s odporúčaním BfR XXXVI.
- **Typy potravín:** Možno ho použiť v priamom styku so suchými potravinami a s takými masnými potravinami, ktorým bol pridelený korekčný faktor minimálne 3 podľa prílohy III, tabuľky 2 nariadenia EÚ 10/2011.
- **Legislatívny súlad:**
 - Spĺňa požiadavky rámcového nariadenia (ES) č. 1935/2004.
 - Vyrobený v súlade s nariadením (ES) č. 2023/2006 (správna výrobná prax) s úplnou sledovateľnosťou surovín cez IT systémy a certifikovaným systémom manažérstva kvality ISO 9001.
 - Vyhovuje odporúčaniu BfR XXXVI (*Papier a lepenka na styk s potravinami*).
 - Spĺňa pravidlá nemeckého zákona LFGB a švajčiarskej vyhlášky SR 817.023.21 (časť 9, článok 27).
 - *Upozornenie:* Produkt nebol posudzovaný podľa požiadaviek americkej FDA (21 CFR Ch. 1) ani podľa francúzskej regulácie Fiche MCDA č. 4.

3. Bezpečnosť hračiek

- Papier spĺňa chemické požiadavky smernice Európskeho parlamentu a Rady 2009/48/ES o bezpečnosti hračiek pre zoškrabané materiály. Je bezpečný pre hračky pre deti staršie ako 3 roky a pre hračky, ktoré nie sú určené na vkladanie do úst.
- Vyhovuje požiadavkám normy **EN 71-3** (*Migrácia určitých prvkov*).

- Vyhovuje norme **EN 71-9:2005** (*Organické chemické zlúčeniny*), pričom koncentrácia formaldehydu (podľa EN 645 a EN 1541) je potvrdená pod limitom 30 mg/kg.

4. Relevantná legislatíva a chemická bezpečnosť

- **REACH (ES 1907/2006):** Registračné povinnosti sa nevzťahujú priamo na samotný papier uvádzaný na trh spoločnosťou Sappi; povinnosti pre suroviny plnia dodávatelia. Žiadne látky vzbudzujúce vecné obavy (SVHC) ani látky z prílohy XIV nie sú prítomné v koncentráciách nad 0,1 % (zohľadnené aktualizácie do 4. februára 2026).
- **Nariadenie (EÚ) 2025/40 (PPWR):**
 - **Článok 5 ods. 4:** Produkt spĺňa požiadavky na minimalizáciu ťažkých kovov.
 - **Článok 5 ods. 5:** PFAS nie sú zámerne pridané a produkt spĺňa požiadavky na základe vykonaných analýz.
 - **Článok 6:** Recyklovateľnosť je preukázaná v súlade s normou EN 13430:2004.
- **Ďalšie normy:** Súlad s modelovou legislatívou CONEG pre ťažké kovy (Cr(VI), Pb, Cd, Hg < 100 ppm), smernicou RoHS (2011/65/EÚ), kalifornským zákonom Proposition 65 (aktualizácie do 5. decembra 2025) a Kanadským zákonom o ochrane životného prostredia.

5. Informácie o ukončení životnosti (End-of-Life)

- **Recyklovateľnosť:** Produkt je plne recyklovateľný v prúde zberného papiera. Možno mu priradiť recyklačný kód PAP 22 podľa prílohy II smernice 97/129/ES.
- **BSE/TSE a živočíšne suroviny:** Pri výrobe sa nepoužívajú rizikové materiály živočíšneho pôvodu podľa nariadenia (ES) č. 1326/2001. Pomocné látky (napr. odpienovače) vylučujú riziko TSE na základe vyhlásení dodávateľov. Žiadne látky živočíšneho pôvodu nie sú zámerne pridané (produkt však nie je certifikovaný ako Kosher alebo Halal).

6. Nepoužitie špecifických látok

Pri výrobe papiera Smartline Fine Gloss **neboli zámerne pridané** nasledujúce látky a materiály:

- Geneticky modifikované organizmy (GMO).
- Antrachinón (pravidelne kontrolovaný).
- Alergény podľa prílohy II nariadenia EÚ 1169/2011 (s výnimkou pšeničného škrobu, ktorý môže obsahovať lepok).
- Látky s obsahom glycidylesterov mastných kyselín alebo glycidylsilánov (GLYMO, GLYEO).
- Pevné polystyrénové plasty (v surovinách sa môžu nachádzať vodné disperzie styren-butadiénového latexu).
- Perzistentné organické látky (POP) v zmysle Štokholmského dohovoru a nariadenia EÚ 2019/1021 (zohľadnené zmeny do 22. júla 2024).
- Oxidy titánu.
- Polyvinylidénchlorid (PVDC) ani polyvinylchlorid (PVC).
- Konfliktne minerály (zlato, cín, tantal, wolfrám) podľa zákona Dodd-Frank Act.

- Karcinogénne, mutagénne alebo reprotoxické látky (CMR) podľa nariadenia CLP (ES) 1272/2008.
- Mokrý spevňovadlá, spomaľovače horenia a látky podľa oddielu 6 amerického zákona TSCA.
- Bisfenol A ani iné bisfenoly a deriváty, čím je splnené nariadenie (EÚ) 2024/3190.
- Ďalšie zakázané látky ako azbest, benzén, formaldehyd, ftaláty, organotinové zlúčeniny, pesticídy, azofarbivá a prchavé organické zlúčeniny (VOC).
- *Poznámka k nanolátkam:* Suroviny (napr. uhličitán vápenatý) môžu obsahovať častice v nanorozmeroch, ktoré sa vyskytujú prirodzene alebo technicky nevyhnutne; sú pevne naviazané v papierovej matrici a nemigrujú.
- *Poznámka k optickým zjasňovačom (OBA):* Sú zámerne použité v súlade s odporúčaniami BfR a predpismi FDA.
- *Poznámka k minerálnym olejom (MOSH/MOAH):* Nepoužívajú sa ako surovina, avšak stopové množstvá z pomocných látok môžu viesť k pozitívnemu výsledku MOSH analýzy.

7. Vylúčenie zodpovednosti (Disclaimer)

Toto vyhlásenie sa vzťahuje výlučne na produkt v stave, v akom ho dodáva spoločnosť Sappi, a nenahrádza potrebné testovanie finálneho použitia zo strany odberateľa. Spoločnosť Sappi nezodpovedá za škody spôsobené nesprávnym alebo neodborným používaním výrobku. Zodpovednosť za overenie vhodnosti papiera Smartline Fine Gloss na konkrétnu aplikáciu nesie koncový používateľ. Vyhlásenie platí maximálne jeden rok od dátumu vydania (do 9. júla 2027), pokiaľ nie je k dispozícii novšia verzia. Opätovné publikovanie tohto dokumentu nie je povolené.
